The Basic Course is the first course in behavior management developed specifically for the long-term care industry. Written by experts, from first-hand field experience, this course is easy to understand. It has proven to motivate staff to tackle even the most challenging cases as a team.

The Basic Course is written for everyone in long term care who does not have the responsibility to design interventions. This includes nurse aides, administration, housekeeping, dietary staff and other support staff.

### Features: **Two audio tapes and 80-page workbook**

- Field tested:** Over 8,000 satisfied customers (92% rate the course as excellent!)
- Educational:** Teaches the process of behavior management from identification of cases through assessment, design of interventions, intervention, and evaluation.
- Usable:** Written at a seventh grade level and fully illustrated, this course is packed with real case examples your staff will relate to. The course is formatted for individual self study or six 30-minute in-service sessions. Testing, certification and CEU administration is processed by GeroServices.

Those who will be designing baseline assessments and intervention strategies are encouraged to take the companion Advanced Course.

This product is licensed for single facility use only. Multiple facility licenses are available at discounted rates.
